Comments: I recently had Lasik vision correction on July 7th. I have not been able to see well since I was about 8 years old. I went from being at -9 diopters to 20/20 vision. I wish I had done this sooner! Dr. Primack and his team are wonderful! He explains everything step by step and is very thorough. There is some discomfort the few hours after it's done but by the end of the day I felt great. I can not thank Dr. Primack enough, he has given me my vision back. If considering my lasik, I recommend Dr. Primack!
