Comments: Lucy & the staff at Eye Consultants of PA were friendly, knowledgeable & patient. Because of my Sjögren's Syndrome (autoimmune disease), Dr. Primack took the time to consult with Dr. Shah & my rheumatologist to find the best vision correction option for me. The team was graciously willing to follow my timeline (inc. a 6-month delay) & answered all of my many questions. I was amazed at seeing the clock on the wall as I left the operating room! Dr. Primack helped calm my nerves throughout the entire procedure. This team is about relationships first, and I will continue to recommend their services to everyone I meet! Thank you all for giving me my sight back and an amazing quality of life!
