

Meet Dr. Shah

Kevin J. Shah, MD

Dr. Shah, a native of New York City, joined Eye Consultants of Pennsylvania in 2016 after serving as faculty at the Cole Eye Institute at Cleveland Clinic.

Dr. Shah, a board-certified cornea and cataract surgeon, brings a variety of modern surgical techniques to the Cornea Service at Eye Consultants of Pennsylvania, specifically:

- Bladeless LASIK (Laser Assisted in-Situ Keratomileusis)
- Photorefractive Keratectomy (PRK)
- Phototherapeutic Keratectomy (PTK)
- Suture-less cataract surgery
- Astigmatic and Presbyopic correction during cataract surgery
- Descemet Stripping Automated Endothelial Keratoplasty (DSAEK)
- Descemet Membrane Endothelial Keratoplasty (DMEK)
- Deep Anterior Lamellar Keratoplasty (DALK)
- Conjunctival Limbal Autograft (CLAU)
- Penetrating Keratoplasty (PK)
- Implantation of the Boston Type 1 Keratoprosthesis (Boston Kpro)

After obtaining his undergraduate degree from Northwestern University, Dr. Shah earned his medical degree from SUNY Upstate Medical University in Syracuse, NY and completed his ophthalmology residency at Manhattan Eye and Ear Throat Hospital (MEETH) / New York University. He then completed a fellowship in Cornea and External Disease at the Cincinnati Eye Institute / University of Cincinnati under the tutelage of Edward J. Holland, MD, an internationally recognized leader in corneal transplantation and ocular surface reconstruction.

During his fellowship, Dr. Shah specialized in astigmatic and presbyopic correction during cataract surgery, ocular surface reconstruction, limbal stem cell transplantation and partial corneal transplantation procedures. At the Cleveland Clinic, Dr. Shah served as faculty on the cornea and cataract service and helped train many residents and fellows in complicated corneal diseases and surgeries.

Dr. Shah is well published in peer-reviewed journals and has a specific interest in treating Fuchs Dystrophy and Keratoconus. He has authored several book chapters, specifically focusing on the surgical techniques for DMEK, Herpes Simplex Keratitis, and Corneal transplantation in patients with ocular surface disease. He also served on the accreditation board for the Eye Bank Association of America (EBAA), the accrediting body for eye banks in the United States from 2013 – 2020. He is also a member of the Editorial Advisory Board for Ophthalmology360

For more detailed information about Dr. Shah's background and credentials, including his recent publications and presentations, please see the attached Curriculum Vitae.
